SMART FLOORING: INSPIRED BY THE FUTURE, BUILT FOR TODAY

MEETING MARKET TRENDS WITH
INNOVATIVE SOLUTIONS.

Afirmax offers a versatile range of formats, including CLASSIC PLANK, HERRINGBONE, and CHEVRON, all designed in coordinated decors for seamless and stylish interior designs. With a thoughtful combination of high-quality materials, innovative technology, and competitive pricing, Afirmax smart flooring is redefining the flooring industry.

Built on a durable mineral core and paired with specialized underlays, Afirmax floors deliver reliable performance and lasting quality. They provide an excellent alternative to high-end options, balancing durability, ease of installation, and attractive design choices.

Designed to meet the changing demands of modern markets, Afirmax flooring combines practical features with accessible pricing, making it the perfect choice for both businesses and homeowners seeking quality and value.

ACULAY FLOORS

Legnar Acoustic is a collection that combines European craftsmanship with the expertise gained through years of collaboration with our customers. The proven technology used in the ACULAY layer has gained recognition not only from our long-standing partners, but also from new customers entering completely different markets. We are extending the availability of floors with acoustic layer to three collections, providing wider access to this innovative solution.

Providing sound insulation at a level of 21 dB (10 dB Δ Lin), this innovative solution features unique cell shapes and patented embossing, effectively dispersing sound waves to deliver exceptional acoustic comfort. The durability of this collection has been validated through a 25,000-cycle castor chair test, ensuring the quality and longevity that our clients around the world value.

SHAPE**MATCH**

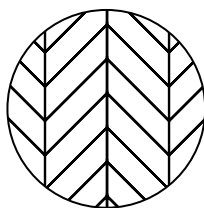

SAME COLOR, **DIFFERENT PATTERNS**

Afirmax Smart Flooring sets a new standard in interior design, offering the same elegant oak shades in three key formats: Herringbone, Chevron, and classic plank. This versatility allows customers to create diverse flooring layouts while maintaining a consistent color palette, enabling smooth transitions between rooms and ensuring visual harmony across spaces. This is the essence of Smart Flooring – a solution that adapts to your vision, combining timeless style with top-level design flexibility.

HD MINERAL CORE®

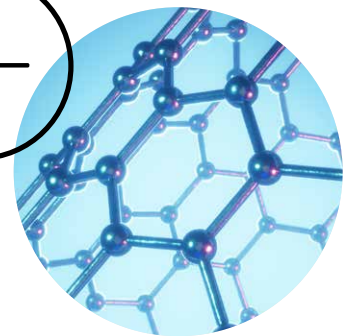

Through innovative research in our laboratories, we have engineered the **HD Mineral Core®**, a state-of-the-art blend of natural rock minerals and sophisticated polymers. This precision-engineered mix ensures the flooring's peak performance and unparalleled durability. Proudly, our **HD Mineral Core®** stands out for its absence of phthalates and any plasticizers, highlighting our commitment to environmental safety and quality.

Additionally, this groundbreaking technology secures a 15-year warranty on our flooring, alongside superior thermal conductivity, making it the premier choice for underfloor heating solutions.

DESIGN BEVEL NEW LOOK

This high-quality imitation of natural wooden flooring creates a warm and inviting atmosphere, embodying the standards set by Afirmax. The bevel, available in the Legnar Ultra and Legnar collections, has been carefully designed to reflect the most sought-after and preferred solutions in the flooring industry. Its thoughtful design enhances the authentic appearance of the floor, seamlessly blending practicality with style.

STRUCTURE OF NATURAL WOOD

NEW QUALITY OF EMBOSSING TECHNOLOGY

The EIR (embossed in register) technology we are using allows us to achieve higher resolution of embossing, meaning higher density of details enriching surface of planks. LEGNAR ULTRA has more significant knots, grains, clear figure and small indentation that create a real wooden characteristic of the plank. Matte finishing of planks underlines all technological features giving a beautiful impression of a natural floor.

LEGNAR STONE ACOUSTIC: PREMIERE OF 2025 SCHEDULED FOR MID-YEAR!

We proudly present a revolutionary flooring solution that combines stunning tile and stone decors with advanced technology. Equipped with the innovative 5G CROSS installation system, it ensures ease and precision during installation, perfectly replicating the classic look of tiled layouts. Additionally, the integrated ACULAY layer provides exceptional sound insulation, elevating comfort to an entirely new level.

This groundbreaking innovation is worth the wait!

ARBITON ACCESSORIES **SKIRTING BOARDS**

STIQ is an environmentally friendly and waterproof skirting board made entirely from high-density polystyrene. This versatile material is often used in products like packaging, toys, and insulation for buildings. Free from chlorine and PVC, STIQ prioritizes safety and sustainability. What makes it truly innovative is that 80% of its composition is derived from recycled materials, making it a standout choice for eco-conscious design.
